 87 124 126 127 208
 223 226 228 243 244
 routes also calling: 81, 81A, X7, X8

HOW TO USE THIS MAP

Firstly, find where you wish to travel to and from. The index at the right of the map will help you.

If the same number is shown in the index against both your destination and your starting point, then a through service is available. The frequency guide on the reverse of this map will show how often the service runs. Full timetable information is available from the website.

If through services are available, then you will need to change buses. The pair starting point and destination in the index, then take the route number from the starting point and the route number from the destination, using the route numbers. This will show you the routes available to you, and where you will need to change buses. However, it may also be possible to interchange between bus and rail.

Once you have found out which services you need to use, you can use the frequency guide on the reverse of this map to see how often each service runs. Again, full timetable information is available from the website.
